Younglove's Services

- Conceptual design
- Structural engineering
- General construction
- Construction management
- Slipform concrete construction
- Equipment installation

Alton, Illinois

This project included the design and construction of a 38-foot-diameter by 108-foot-tall slipform silo to store midds and a truck loading system rated at 135 cfm with a 70-foot by 10-foot truck scale. This silo has an 80,000-cubic-foot capacity. The 39-foot long by 19-foot wide concrete loadout exterior features two electric-operated 14-foot by 14-foot overhead doors. This project also features a 135 cfm Laidig unloader.
