- Slipform concrete construction
- Equipment installation

## **California, Missouri**

The Cargill turkey feed mill project includes a slipformed concrete feed processing tower with attached slipformed grain storage, attached offices and warehouse, and 1,000 feet of rail siding. The mill contains 1,600 tons of ingredient storage, 700 tons of finished feed storage, and 65,00 bushels of whole grain storage. Processing equipment includes grinding, batching, mixing, and pelleting, with handling equipment for truck and rail receiving and truck loadout.
