Size/Capacity

70 tons per hour

Completion Time

12 months

Younglove's Services

- Structural engineering
- General construction
- Construction management
- Slipform concrete construction
- Equipment installation

Chattanooga, Tennessee

Younglove Construction did the design and construction of this 70-ton-per-hour poultry feed manufacturing plant. The slipform concrete plant contains 1,320 tons of ingredient storage, 80 tons of mash storage, 490 tons of finished feed storage, and a 200,000-bushel slipform grain storage annex.

Equipment includes two 300 hp pellet lines, one 70-ton-per-hour mixing line, two 25-ton-per-hour grinding lines, one 140-ton-per-hour truck receiving line, and one 140-ton-per-hour rail receiving line. Periphery structures include a 4,800-square-foot warehouse and a 3,200-square-foot shop and boiler building.
