

WAYNE FARMS POULTRY FEED MILL

Owner

Continental Grain
Company/Wayne Farms
Division

Size/Capacity

8,000-12,000 tons per
week

Completion Time

14 months

Younglove's Services

- Structural engineering
- General construction
- Construction management
- Slipform concrete construction
- Equipment installation

Maysville, Georgia

Twenty-one different bins provide 2,340 tons of ingredient storage. Loadout capacity is 1,000 tons; and six 31-foot-diameter, cone-hoppered silos provide 362,000 bushels of whole grain storage. Two pellet lines were installed with room for a third. The pellet mill supply bins add another 300 tons of storage to the mill capacity. Room for future expanders was included in the mill layout.

Rail and truck receiving, a 10-ton batching system, and a bulk-sack batching scale were incorporated.
